

Criterion	Excellent (4)	Good (3)	Satisfactory (2)	Needs Improvement (1)	Weight
Scene Setup & Moving Background (name, fps, 120 frames, background scrolling)	Scene fully set up correctly AND background scrolls smoothly throughout.	Scene set up correctly, but background has minor issues (e.g. slight stutter).	Scene partially set up OR background is present but mostly static.	Scene setup incorrect AND no moving background.	×2 (max 8)
Visual Elements (character / figure + looping animation)	Both a character AND a looping animation are clearly present and well-executed.	Both are present but one lacks quality or polish.	Only one of the two elements is present.	Neither a character nor a looping animation is present.	×2 (max 8)
Text & Color Effects	Text and color effect are both clearly visible and effective.	Both are present but one is minor or barely noticeable.	Only one of the two is present.	Neither a text nor a color effect is present.	×2 (max 8)
Keyframing & Timing	Keyframes used correctly throughout; animation timing feels natural	Keyframes are used but timing is slightly off or inconsistent in places.	Minimal keyframe use; most elements are static or jump abruptly.	No keyframing; animation is entirely static.	×2 (max 8)
Creativity & Visual Quality	Visually appealing, clear theme, and shows creative effort beyond the minimum.	Recognizably theme with some creative elements.	Meets minimum requirements but lacks visual appeal or theme identity.	Little effort shown; barely resembles a theme.	×2 (max 8)
